

Transatlantic Trend Survey (TT)

The entity that has organized the survey and is responsible for data collection - as well as key data on the entity's membership, governance arrangements, source of funding etc.

The Transatlantic Trends (TT) project is organized by the German Marshall Fund of the United States and the Compagnia di San Paolo, with additional support from the Fundação Luso-Americana, Fundación BBVA, the Communitas Foundation, the Swedish Ministry for Foreign Affairs, and the Open Society Foundations.

A historical sketch of the initiation and origin of the survey

The first TT survey was conducted in 2003.

Internet links to the website of the responsible organization

<http://trends.gmfus.org/>

The frequency or repetitions of the survey. Possible explanation of this.

The TTS is an annual survey and has been so since 2003.

A description of the survey's content, i.e. both focused rotational and / or core modules of the survey.

The survey concerns itself with people's opinions on world affairs, foreign politics, conflicts, and

international events. In addition, the TT has launched another TT survey series with a special focus on immigration.

An outline of the type of sample and the main data collection methods used.

Random-digit dialing sampling procedure employed. For country- and wave-specific details, please refer to the “Key Findings”-reports (see the links above).

Normally telephone interviews are conducted, but in some countries and some rounds face-to-face interviews have also been conducted. For country- and wave-specific details, please refer to the “Key Findings”-reports (see the links above).

An account of the availability of the data to researchers, restrictions on access, etc.

All the studies are freely available for researchers upon registration at [the ICPSR](#).

Questionnaires, English version

The questionnaires are available in the codebooks.
